S U M M A R Y

Results-driven Software Development Manager with 14 years of experience in Java, Native Android Development, and leadership of Java, iOS, and React Native teams. Proficient in modern Android architecture and best practices, including MVI, MVVM, MVP, Clean Architecture, Jetpack Compose, RxJava, Kotlin, and Coroutines. Successfully managed and delivered 40+ projects with end-to-end ownership, excelling in mentoring teams, client collaboration, and project management to deliver scalable, high-quality solutions aligned with business objectives.

E X P E R I E N C E

- Software Development Manager**
Accenture ↗

08/2024 - Present

 - Managed the UKG-Ready project for a Java-based web application.
 - Directed the development lifecycle, ensuring high-quality code delivery and adherence to best practices. Collaborated with stakeholders for requirement gathering, sprint planning, and project execution. Mentored and managed a cross-functional team of developers.
 - Technologies: Java, Spring, REST APIs.
- Lead Experience Engineer**
Publicis Sapient ↗

11/2019 - 08/2024

 - Led Android and iOS teams across multiple projects, including Yahoo! Mobile (Verizon), Neutron (Aristocrat Technologies) and FAZIL App (Falabella Group), delivering proximity libraries, geofencing features, and instant-delivery applications, impacting millions of users.
 - Designed and developed scalable, high-performing features using Kotlin, Java, Coroutines, and MVVM, ensuring a minimum of 85%-unit test coverage.
 - Architected and integrated custom Capacitor plugins with Ionic frameworks to enable seamless native functionalities, improving cross-platform compatibility by 30%.
 - Collaborated with clients for feature estimation, delivery, and release planning, ensuring on-time completion of 10+ high-impact features with 100% client satisfaction.
 - Mentored a team of 10+ developers, conducted code reviews, and resolved critical issues, reducing defect leakage by 25%.
 - Utilized BLE, iBeacons, Firebase, and Google APIs to implement advanced location-based services and context-aware interactions.
- Associate Architect**
Nitor Infotech ↗

12/2014 - 11/2019

 - Re-architected and optimized legacy application code for enhanced performance and scalability, reducing technical debt by 30%.
 - Led Android and iOS teams in delivering feature-rich applications like Access Care Planning, Blue Star Smart AC, and BSL Smart HR, impacting 100,000+ users.
 - Designed and developed solutions integrating Firebase, Google APIs, barcode scanners, and Tuya SDK, ensuring seamless functionality across devices.
 - Collaborated with cross-functional teams for requirements gathering, solution design, and delivery, achieving 100% on-time project completion.
 - Architected IoT-enabled applications, including Blue Star Smart AC, providing remote control capabilities and boosting user satisfaction by 25%.
 - Mentored teams on best practices and streamlined development workflows, improving productivity by 20%.

Senior Developer

Mobiloitte India ↗

11/2013 - 12/2014

- Led the design and development of the Dudalina Mobile app, a fashion-focused platform providing content on style, lifestyle, travel, and cuisine to enhance user engagement.
- Developed core application features using Android SDK, Core Java, and JSON, ensuring smooth data integration and optimized performance.

Android Developer

MetaOption Pvt. Ltd. ↗

09/2011 - 10/2013

- Designed and developed the Goods Order Inventory Pro (GOIS Pro) app, an integrated inventory and order management solution for businesses, streamlining purchase and sales processes.
- Utilized Android SDK, Core Java, JSON, and Google APIs to implement core features and ensure seamless integration with inventory and order management systems.
- Delivered an intuitive mobile and web interface, enhancing user experience for managing inventories, multiple locations, and customers.

EDUCATION

Rajiv Gandhi College of Engineering, Research and Technology, Chandrapur - Bachelor of Engineering (Information Technology)- B

05/2007 - 06/2011

CERTIFICATES

SCJP

09/2009 - Present
